Summary

Enthusiastic about developing modern web applications with interactive interfaces which are user friendly.

Able to contribute to the team environment with adaptability, good communication and consistency with my task.

Technical Skills

- **Languages:** Python, JavaScript, Java
- **Web Technologies :** HTML, CSS
- **Database:** MySQL,
- **Tools:** VS Code, GitHub

Projects

Portfolio

Designed and developed a modern responsive portfolio website to showcase projects, technical skills, certifications, and GitHub profile using HTML, CSS, and JavaScript. Implemented interactive UI components, smooth scrolling, responsive layouts, and mobile-friendly design for an improved user experience.

Emotion Detection System using Deep Learning

Developed a multimodal emotion recognition system using Vision Transformer (ViT), WavLM, and cross-attention fusion to analyze facial and vocal emotional cues from the CREMA-D dataset. Achieved 73% validation accuracy and built a real-time web interface for emotion prediction using PyTorch.

Education

Bachelor's of Vocation in Information Technology

Bishop Heber College | 2021 - 2024 |

Master's in Information Technology

Women's Christian College | 2024 - 2026 |

Certifications

- Introduction to HTML, CSS & JavaScript – IBM | Coursera
- Introduction to Software Engineering | Coursera
- Introduction to Artificial Intelligence | Coursera
